

SPONSORSHIP OPPORTUNITIES

The ramp featured below has already been used in many high-profile sporting events, such as Monday Night Football, numerous NBA and college basketball games and NASCAR pre-race events. It is center stage for the stunts performed by the BMX riders and is viewed by spectators at the event both on the field or court and on jumbotrons, as well as by television audiences wherever the event is broadcast.

At the NASCAR Busch race, taking place on February 18th at the Daytona Motor Speedway, your brand will be seen by thousands of fans at the race Start/Finish Line, where the ramps will be set up. Your company will receive mention by the announcer during the show and there is also availability for signage placement on the team's golf cart that is used to pull the ramps into position.

Our website includes more information regarding our shows as well as movie clips of actual events.
